How to Order the GlycoMark Test:

The GlycoMark test is available through various national and regional laboratories, and as a test kit for use on most automated chemistry instruments. The test is reimbursed by most federal, state and private payers (CPT Code 84378). [Click Here](#) for more information!

The Mark newsletter is distributed to healthcare professionals that treat and manage patients with diabetes, and contains the latest updates and important references for the GlycoMark test. This is a complimentary publication provided through the generous support of GlycoMark, Inc.

The information contained herein is not medical, diagnostic or treatment advice for any particular patient. Physicians should use their clinical judgment and experience when deciding how to diagnose and treat patients and in the use of the GlycoMark test in the treatment of the patient. Please refer to the GlycoMark product insert for more information.

The GlycoMark test is FDA cleared for professional use to provide quantitative measurement of 1,5-anhydroglucitol (1,5-AG) in serum or plasma. The GlycoMark test is intended for intermediate-term monitoring of glycemic control in patients with diabetes. It is not intended to be used to identify patients that will experience complications of diabetes or the likelihood of experiencing complications.
