GlycoMark Updates for Healthcare Professionals
Caring for Patients with Diabetes

DIABETES MANAGEMENT

Issue 17 - May 2019

Dear Healthcare Professionals,

**New GlycoMark clinical data
being presented at the
ADA's 79th Scientific Sessions**

**"GlycoMark 1,5-Anhydroglucitol Values in
Patients Taking SGLT-2 Inhibitors"**

Sunday, June 9 - 12:00 - 1:00 PM
Moscone Center, San Francisco, California

Clinical Therapeutics/New Technology-SGLT Inhibitors
Poster Session (1227-P)

Stay tuned for updates!
We look forward to seeing you at ADA!

The GlycoMark test complements other tests for diabetes for a more complete assessment of glycemic control. The GlycoMark test can help you identify recent hyperglycemia and glycosuria.

Now, ordering the test in patients with diabetes has never been easier!

**AVAILABLE
NOW**

NEW GlycoMark Test Ordering Guide

A quick reference guide with laboratories and test codes to help staff quickly and easily order the GlycoMark test!

The image shows a preview of the 'Lab Test Ordering Guide' for GlycoMark. It is a multi-page document with a table of laboratory information. The table includes columns for Laboratory Name, Address, Phone, Fax, Website, and Test Code. Laboratories listed include Quest Diagnostics, LabCorp, and others. The document also includes a section for 'Additional Testing Laboratories' and a footer with the GlycoMark logo and contact information.

The GlycoMark test is also available through LabFinder! Check out www.GlycoMark.com

How to Order the GlycoMark Test:

The GlycoMark test is reimbursed by most federal, state and private payers (CPT Code 84378) and available through various national and regional laboratories, and as a test kit for use on most automated chemistry instruments. [Click Here](#) for more information!

The Mark newsletter is distributed to healthcare professionals that treat and manage patients with diabetes, and contains the latest updates and important references for the GlycoMark test. This is a complimentary publication provided through the generous support of GlycoMark, Inc

The information contained herein is not medical, diagnostic or treatment advice for any particular patient. Physicians should use their clinical judgment and experience when deciding how to diagnose and treat patients and in the use of the GlycoMark test in the treatment of the patient. Please refer to the GlycoMark product insert for more information.

The GlycoMark test is FDA cleared for professional use to provide quantitative measurement of 1,5-anhydroglucitol (1,5-AG) in serum or plasma. The GlycoMark test is intended for intermediate-term monitoring of glycemic control in patients with diabetes. It is not intended to be used to diagnose disease or identify patients that will experience complications of diabetes or the likelihood of experiencing complications.

The information above contains general reimbursement information only and is not legal advice, nor is it advice about how to code, complete, or submit any claim for payment. Providers have the ultimate responsibility for all aspects of coding and billing.
